

INVESTING 101

TRACKING MY ASA VALUE AND CONTRIBUTIONS

I NPRS brings members powerful tools for planning their retirements and managing their investments.

You have the ability to manage your Annuity Savings Account (ASA) investments daily, rather than quarterly. You are also able to view and

manage new contributions to your ASA on a payroll basis, rather than quarterly.

With the completion of these two steps, INPRS members have gained a real-time means of tracking their ASA

account values, contributions, and trading activity.

If you have questions, please contact our customer service

center. We can be reached Monday through Friday from 8 a.m. to 8 p.m. EST at (888) 526-1687, or feel free to e-mail us at questions@inprs.in.gov with your concerns.
